Subject Re: UAO at N-Forcer 

We received a letter from the PRP dated May 31, 2005, in which it said it was going to do the work, while also stating some objections to the UAO. We extended the deadline for response, so that the response was timely. The work is underway.

Subject UAO at N-Forcer

Mr. Krueger,

Debra Potter, Superfund Information Management Coordinator, has tasked Booz Allen to ensure that all enforcement actions are entered into WasteLAN. There was an Unilateral Administrative Order (UAO) issued at the N-Forcer site on 5/12/2005. To receive accomplishment credit for this UAO, WasteLAN requires the date that EPA received written notice that the PRP(s) intend to comply with the UAO. Have the PRP(s) complied with the UAO? What is the date the PRP(s) notified EPA that they intend to comply with the UAO?

Please get back to me by July 5 to ensure correct data for the third quarter data pull at the end of next week.

Please let me know if you have any questions.

Thanks,

Erin Sullivan
